Index of Authors

A

Ames, G.M.
A cultural approach to conceptualizing alcohol and the workplace
Number 2, Pages 112–119
Arria, A.M.
The epidemiology of alcohol-related chronic disease
Number 3, Pages 209–216
Azar, B.
Retinoic acid, embryonic development, and alcohol-induced birth defects
Number 4, Pages 317–323

B

Barnes, J.
The instruction manual for making an embryo: How does alcohol affect embryonic development?
Number 4, Pages 324–332
Blum, T.C.
A description of clients using employee assistance programs
Number 2, Pages 120–128
Browning, M.D.
Alcohol, memory, and molecules
Number 4, Pages 280–284
Bucholz, K.K.
Alcohol abuse and dependence from a psychiatric epidemiologic perspective
Number 3, Pages 197–208

C

Cherpitel, C.J.
The epidemiology of alcohol-related trauma
Number 3, Pages 191–196
Cooper, M.L.
Alcohol and increased behavioral risk for AIDS
Number 1, Pages 64–72
Crabbe, J.C.
Alcoholism: A complex genetic disease
Number 4, Pages 297–303
Cunningham, D.W.
Alcoholism treatment for employees and family members: Its effect on health care costs
Number 2, Pages 149–153

D

Dawson, D.A.
Association of alcohol problems with risk for AIDS in the 1988 National Health Interview Survey
Number 3, Pages 245–252
Day, N.L.
The effects of prenatal exposure to alcohol
Number 3, Pages 238–244
DeBakey, S.F.
Prevalence of DSM–III–R alcohol abuse and/or dependence among selected occupations: United States, 1988
Number 2, Pages 165–172
Association of alcohol problems with risk for AIDS in the 1988 National Health Interview Survey
Number 3, Pages 245–252
Dunwiddie, T.V.
Alcohol, memory, and molecules
Number 4, Pages 280–284
Durcan, M.J.
Genomic imprinting: Parental origin effects on gene expression
Number 4, Pages 312–316

E

Ehlers, C.L.
The new physics of chaos: Can it help us understand the effects of alcohol?
Number 4, Pages 267–272
Erfurt, J.C.
Who is following the recovering alcoholic? Examining the role of followup in employee assistance programs
Number 2, Pages 154–159
Espina, N.
Alcohol and cancer
Number 1, Pages 81–86

F

Fischhoff, B.
Decisions about alcohol: Prevention, intervention, and policy
Number 4, Pages 257–266
Foote, A.
Who is following the recovering alcoholic? Examining the role of followup in employee assistance programs
Number 2, Pages 154–159
Friedman, H.S.
Alcohol, arrhythmia, and sudden death
Number 1, Pages 87–92

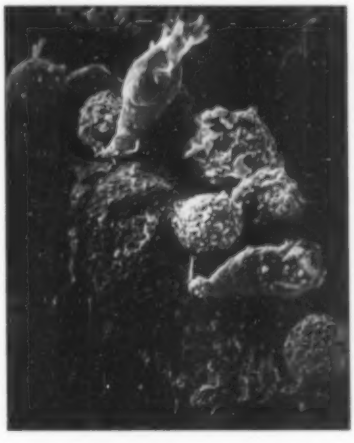
G

Garro, A.J.
Alcohol and cancer
Number 1, Pages 81–86
Giberson, P.K.
Fetal alcohol syndrome and functioning of the immune system
Number 1, Pages 29–38
Goldman, D.
Gene transfer and gene therapy
Number 4, Pages 304–311
Alcoholism: A complex genetic disease
Number 4, Pages 297–303
Gordis, E.
Expanding boundaries of alcohol research
Number 4, Page 255
Grant, B.F.
Association of alcohol problems with risk for AIDS in the 1988 National Health Interview Survey
Number 3, Pages 245–252
Grossman, C.J.
The immune system: Mechanisms that counteract disease
Number 1, Pages 5–14

H

Harford, T.C.
The epidemiology of alcohol consumption and dependence across occupations in the United States
Number 2, Pages 97–105
Overview of epidemiology with applications to alcohol research
Number 3, Pages 177–182
Hingson, R.W.
Treating the employed alcoholic: Which interventions work?
Number 2, Pages 140–148
Hoffer, B.J.
Alcohol, memory, and molecules
Number 4, Pages 280–284

Alcohol and Immunity



Hogan, B.L.M.
The instruction manual for making an embryo: How does alcohol affect embryonic development?
Number 4, Pages 324–332
Holder, H.D.
Alcoholism treatment for employees and family members: Its effect on health care costs
Number 2, Pages 149–153

J

Jacobson, J.M.
Alcoholism and tuberculosis
Number 1, Pages 39–45
Janes, C.
A cultural approach to conceptualizing alcohol and the workplace
Number 2, Pages 112–119
Jerrells, T.R.
Potential role of alcohol in human immunodeficiency virus infection
Number 1, Pages 57–63

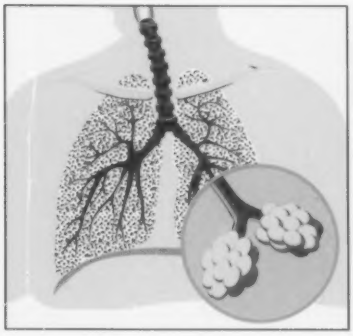
K

Kirkness, E.F.
Genomic imprinting: Parental origin effects on gene expression
Number 4, Pages 312–316
Kruger, T.E.
Potential role of alcohol in human immunodeficiency virus infection
Number 1, Pages 57–63

L

Levenson, S.M.
Treating the employed alcoholic: Which interventions work?
Number 2, Pages 140–148

Alcohol and Immunity



Lieber, C.S.
Alcohol and cancer
Number 1, Pages 81–86
Longnecker, M.P.
Alcohol consumption in relation to risk of cancers of the breast and large bowel
Number 3, Pages 223–229

M

Mann, R.E.
Alcohol and the epidemiology of liver cirrhosis
Number 3, Pages 217–222
Martin, S.E.
The epidemiology of alcohol-related interpersonal violence
Number 3, Pages 230–237
Mason, C.
Alcohol and bacterial pneumonia
Number 1, Pages 73–80
Mendenhall, C.L.
Immunity, malnutrition, and alcohol
Number 1, Pages 23–28
Merrigan, D.M.
Treating the employed alcoholic: Which interventions work?
Number 2, Pages 140–148
Midanik, L.T.
The epidemiology of alcohol consumption
Number 3, Pages 183–190
Mullahy, J.
Effects of alcohol on labor market success: Income, earnings, labor supply, and occupation
Number 2, Pages 134–139
Muthén, B.O.
Latent variable modeling in epidemiology
Number 4, Pages 286–292

N

Nelson, S.
Alcohol and bacterial pneumonia
Number 1, Pages 73–80

Alcohol and the Workplace

Nielsen, D.A.
Gene transfer and gene therapy
Number 4, Pages 304–311

O

Oscar-Berman, M.
Alcoholism and asymmetries of brain function
Number 4, Pages 273–279

P

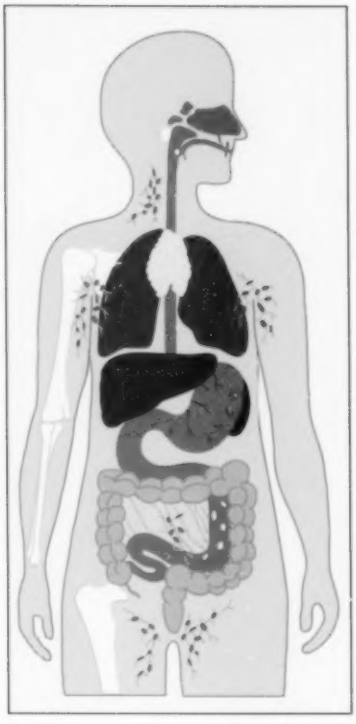
Parker, D.A.
The epidemiology of alcohol consumption and dependence across occupations in the United States
Number 2, Pages 97–105
Pullarkat, R.K.
Retinoic acid, embryonic development, and alcohol-induced birth defects
Number 4, Pages 317–323

R

Roman, P.M.
A description of clients using employee assistance programs
Number 2, Pages 120–128
Room, R.
The epidemiology of alcohol consumption
Number 3, Pages 183–190
Roselle, G.A.
Alcohol and the immune system
Number 1, Pages 16–22
Rosman, A.S.
Viral hepatitis and alcoholism
Number 1, Pages 48–56

S

Shellito, J.
Alcohol and bacterial pneumonia
Number 1, Pages 73–80
Shore, E.R.
Drinking patterns and problems among women in paid employment
Number 2, Pages 160–164
Sindelar, J.L.
Effects of alcohol on labor market success: Income, earnings, labor supply, and occupation
Number 2, Pages 134–139
Smart, R.G.
Alcohol and the epidemiology of liver cirrhosis
Number 3, Pages 217–222



Alcohol and Immunity

Sonnenstuhl, W.J.
The job-treatment balance in employee assistance programs
Number 2, Pages 129–133
Steffens, R.A.
Prevalence of DSM–III–R alcohol abuse and/or dependence among selected occupations: United States, 1988
Number 2, Pages 165–172
Stinson, F.S.
Prevalence of DSM–III–R alcohol abuse and/or dependence among selected occupations: United States, 1988
Number 2, Pages 165–172
Association of alcohol problems with risk for AIDS in the 1988 National Health Interview Survey
Number 3, Pages 245–252
Summer, W.R.
Alcohol and bacterial pneumonia
Number 1, Pages 73–80

T

Trice, H.M.
Work-related risk factors associated with alcohol abuse
Number 2, Pages 106–111

V

Van Thiel, D.H.
The epidemiology of alcohol-related chronic disease
Number 3, Pages 209–216

W

Walsh, D.C.
Treating the employed alcoholic: Which interventions work?
Number 2, Pages 140–148
Weinberg, J.
Fetal alcohol syndrome and functioning of the immune system
Number 1, Pages 29–38
Wilson, E.J.
The immune system: Mechanisms that counteract disease
Number 1, Pages 5–14
Molecular modeling: Computer-assisted innovations in drug design—An interview with Robert Pearlstein, Ph.D.
Number 4, Pages 293–296

Index of Articles

A

Alcohol abuse and dependence from a psychiatric epidemiologic perspective
K.K. Bucholz
Number 3, Pages 197–208
